SUXROB AMONOV – Web & UX/UI Designer

SUMMARY

Web, graphic and UX/UI designer who loves visual aesthetics and user-centered design. I create beautiful, clear and easy-to-use websites, interfaces and graphic materials. At Supwork I design the interfaces of a logistics & warehouse management system (WMS) and the LBM mobile apps, which are live on Google Play and the App Store. Proficient in Figma and Adobe Photoshop; detail-oriented and committed to continuous learning.

SKILLS

UX/UI & Web Design

- Web design & landing pages
- UI design for web apps, admin panels and mobile apps
- User research & information architecture
- Wireframing & interactive prototyping
- Dashboard design
- Responsive design

Tools

- Figma — UI, wireframes, prototypes, developer hand-off
- Adobe Photoshop — graphic design, image editing

Graphic Design

- Social media graphics
- Advertising & branding materials
- App Store / Google Play screenshots and covers

Design skills

- Typography, Color Theory
- Visual hierarchy & consistency
- Usability-focused, user-centered design

Teamwork

- Working with developers and product teams

Languages: **Uzbek:** Native; **Russian:** Basic.

WORK EXPERIENCE

Web Designer

2025 Nov – Present Supwork • Tashkent

- Design modern, responsive layouts for company websites and pages.
- Design the WMS admin panel for a cargo business: shipment reports, warehouse stock, trucks, clients, cash desk and routes; plus a PDA app for warehouse staff. Currently designing the new Marketplace module.
- Designed the LBM super app (cargo, freight and marketplace in one app) and the LBM Driver app — both launched on Google Play / App Store.
- Prepare graphic materials for social media, advertising and branding, including store screenshots and app covers.
- Build wireframes and interactive prototypes in Figma and hand designs off to developers.

SELECTED PROJECTS

WMS — logistics & warehouse management system · Web app · Admin panel · PDA · Mobile
Admin panel covering a shipment's full journey: receiving and weighing, loading, dispatch by route and handover to the client.

LBM — international cargo super app · iOS · Android · Live
Orders, live map tracking, offer comparison, QR-code pickup and a marketplace in one app.

LBM Driver · iOS · Android · Live
Driver app: nearby cargo offers, trip management, ratings and an in-app wallet.

Ochabuloq Savdo · Website · ochabuloq.uz
Responsive website for a shopping complex in Samarkand region: store sections, barbershop services, gallery, map and a Telegram contact form.

EDUCATION

Web Design Course
2025 May – Oct Islom Academy • Islom Safarov's academy, Tashkent

- Hands-on training in UI design, UX principles, wireframing and prototyping.
